Transportation Code §228.057(d) provides that the Texas Department of Transportation (department) may charge reasonable fees for administering electronic toll collection customer accounts.

Title 43, Texas Administrative Code, §27.82(c) provides that the Texas Transportation Commission (commission) by minute order will establish customer account fees. In establishing customer account fees, the commission will consider the cost of operations, including the estimated cost to the department for labor, materials, storage, and bank fees, as well as the requirements of project bond covenants. In Minute Order 112971, dated January 26, 2012, the commission authorized the existing fee structure.

The department recently conducted an analysis of annual operational costs and recommends decreasing the fee for standard tags (including replacement tags) from \$13.85 to \$7.99 per tag for accounts that do not participate in auto-replenishment.

IT IS THEREFORE ORDERED by the commission that the department is authorized to charge a fee of \$7.99 per standard tag (including replacement tags) for accounts that do not participate in auto-replenishment.

IT IS FURTHER ORDERED that all other customer account fees authorized by Minute Order 112971 remain unchanged.
