District No. 13

MINUTE ORDER

WHEREAS, the State Highway and Public Transportation Commission, under provision of Vernon's Civil Statutes 6701d-11, Section 5 1/2 is authorized to fix the maximum gross weight of vehicles or combination thereof and load or maximum axle and wheel loads which may be transported or moved on, over, or upon any State Highway or Farm-To-Market or Ranch-To-Market Road at a less weight than the legal loads when it is found that greater maximum weight would tend to rapidly deteriorate or destroy the roads, bridges or culverts; and,

WHEREAS, Structure 19 of Control and Section 408-05, FM 331 in Austin County, of the Yoakum District has undergone serious structural damage due to an earth slide, and the time of repair is estimated at three to four months henceforth; and,

WHEREAS, an engineering and traffic investigation has been made of the structure to determine and fix the maximum loads to be transported or moved on, over, or upon the structure of said Highway; and,

WHEREAS, it has been determined from this investigation that the loads on the structure of the Highway should be restricted;

NOW, THEREFORE, IT IS ORDERED that the maximum limits of loads which may be transported or moved on, over or upon this structure be fixed at 30,000 lbs. gross vehicle weight until such time that the necessary repairs are completed.

FURTHER, the State Highway and Public Transportation Commission hereby delegates to the Chief Engineer of Safety and Maintenance Operations the authority for the removal of load restrictions and appropriate signs upon completion of the required repairs to said structure.
